

MAKE THE MOVE TO SHIFT

READY-TO-WEAR, RIGHT WHERE YOU ARE

You can hear better with SHIFT™ Ready-To-Wear hearing devices. SHIFT hearing devices are ready to wear right out of the box and are completely set-up and optimised using an app – whenever you're ready, wherever you are.

The adaptive technology in SHIFT adjusts to changing sound environments to seamlessly deliver better hearing. SHIFT offers wireless streaming for hands-free phone calls and music streamed directly to your hearing devices, making communication easier than ever! And it's rechargeable, so you don't need to worry about replacing batteries for your devices.

Physical distancing doesn't mean you have to miss out. Whether you're spending more time streaming your favourite shows, connecting with family on voice or video calls, or have moved your weekly get together with friends to a virtual space, SHIFT will help you hear better and stay connected to life's most important moments.

SHIFT IS IDEAL FOR MILD TO MODERATE HEARING LOSS.

SHIFT™
MAKE THE MOVE

Powered by Unitron

TAKE CHARGE OF YOUR HEARING EXPERIENCE

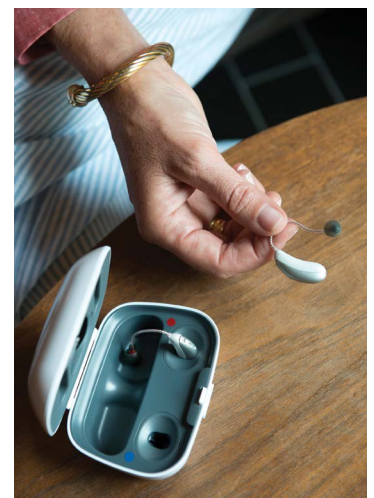

SHIFT is a life-enhancing hearing solution that's more than a clever amplifier. It works together with a smartphone app to give you more control over the way you hear. And, it packs industry-leading features into a sleek design that fits comfortably on your ear.

WHY CHOOSE SHIFT?

- **Great sound** – adaptive technology automatically adjusts to changing sound environments to seamlessly deliver better hearing
- **Direct connectivity** – wireless streaming for hands-free phone calls and music, directly to your hearing devices
- **Convenient and safe** – shipped right to your door, set-up and optimised by you with the easy-to-use app (no need for an in-person appointment until it's safe to have one)
- **Support you can trust** – confidence that comes with a professional recommendation and convenient self-serve support options, including how-to videos, and more

KEY FEATURES

- Easy to set-up
- Personalise your sound profile and optimise on-the-go
- Direct media streaming via Bluetooth®
- Hands-free phone calls to both ears
- Programs optimise sound for conversations in quiet and noise, as well as live music

SHIFT MAKES THE FIRST STEP TO BETTER HEARING EASY. SO, GO ON, MAKE THE MOVE.
